

GULF MINERALS: COMO ENGINEERS TO HEAD KUPANG SMELTER PROJECT

PERTH, **Mar 20**

Australian-based manganese ore and alloy producer Gulf named Como Engineers as project manager for construction of its \$A52M Kupang smelter in West Timor, Indonesia. Major site work is due to begin on July 1, for first production of high-carbon ferromanganese alloy by July 2016.

Como nominated XRAM Technologies as pyrometallurgical engineers on the project
